AV PRODUCTION SPECIALIST & LIVE SYSTEMS TECHNICAL PROGRAM MANAGER

Senior Events Production & Technical Leader with 25+ years of experience in technical production and equipment operation for large-scale corporate, technology, public-sector, broadcast, hybrid, and high-visibility live events. Deep background across end-to-end production, technical direction, show calling, run-of-show development, speaker support, video engineering, LED, graphics, projection, high-resolution switching (Barco, Analog Way), media servers, fiber infrastructure, and live event troubleshooting.

Brings a rare combination of producer-level ownership, deep technical broadcast experience, and hands-on AI workflow development—delivering polished, fail-safe live experiences in high-pressure, executive-facing environments.

CORE COMPETENCIES

- End-to-End Event Production & All-Hands Operations
- Keynotes, Executive Summits, Town Halls & Flagship Global Broadcasts
- Run-of-Show, Cue Sheets, SOPs, Technical Drawings & Runbooks
- Live Show Calling & Executive Speaker Preparation
- Barco, Analog Way, Millumin, Disguise, Watchout & Media Servers
- Broadcast, Streaming, vMix, OBS & Hybrid Event Workflows
- Fiber Optic Infrastructure, Dante, NDI, SDI & AV Networking
- High-Stakes Device & Software Demo Program Management (DIT Lead)

- AI-Assisted Production Automation & Workflow Design
- Calm, Decisive Leadership in High-Pressure Live Environments

PROFESSIONAL EXPERIENCE

TECHNICAL PROGRAM MANAGER & EMERGENCY PRODUCTION LEAD | GOOGLE EVENT TECHNOLOGY TEAM

Magnit XWF Contract | San Francisco, CA | February 2026 – Present

- Brought on as Location Technical Device Demo Lead for "Made by Google 2026" Product Launch (August 2026): Managed the remote Brooklyn live device-demo technical interface for a flagship global broadcast streamed across 12 platforms, Times Square billboards, and global distribution feeds.
- Executed zero-fail live operations under extreme outdoor conditions (heat wave, sudden rain, remote wireless connectivity challenges) while navigating complex multi-vendor relationships—executing flawlessly and earning unanimous Google management backing and ongoing Google Cloud contract extensions.
- Embedded as Technical Program Manager across major Google programs (Google I/O, Zeitgeist, Made by Google, Google Cloud Next), translating complex technical requirements into actionable show-execution plans.
- Coordinated internal Google product teams, external vendors, union crews, and creative partners to support demo readiness, technical documentation, rehearsal workflows, and real-time show troubleshooting.

FREELANCE EVENT PRODUCTION & TECHNICAL LEAD

Visual Works Inc. & Various Agencies | San Francisco, CA | 2007 – Present

- Produced, led, and supported 100+ small- & large-scale corporate, technology, broadcast, hybrid, and live events for global clients including Google, Amazon, Microsoft, Visa, eBay, RSA, Salesforce, Adobe, and Samsung (budgets >\$1M, cross-functional teams of 20+).
- Held senior production roles including Technical Director, Technical Producer, Room Producer, Video Engineer, Graphics Operator, Engineer-in-Charge, IT Manager, DIT, and Production Lead.
- Developed run-of-show workflows, cueing plans, rehearsal processes, speaker-ready graphics systems, technical documentation, and signal-flow redundancy plans for high-stakes executive broadcasts.
- Designed and troubleshoot complex technical environments: large-format LED walls, multi-screen blends, projection mapping, media servers, high-resolution switching, streaming workflows, and fiber distribution.
- Integrated AI tools (ChatGPT, Claude, custom workflow tools) to accelerate production planning, organize logistics, automate documentation, and streamline pre-production work.

VIDEO & FIBER SYSTEMS LEAD

Moscone Center / IATSE Local 16 | San Francisco, CA | 2015 – Present

- Lead and support video, fiber-optic, telecom, and signal-distribution infrastructure for large-scale corporate and technology events across Moscone Center's North, South, and West buildings.
- Support marquee events including Dreamforce, RSA Conference, NBA, NFL, major tech product launches, and executive programs requiring uninterrupted signal routing.
- Design, troubleshoot, and maintain fiber distribution, video routing, projection, LED, media playback, networking, broadcast feeds, and hybrid streaming workflows.

VIDEO HEAD / PRODUCTION VIDEO

ACT Toni Rembe Theater / IATSE Local 16 | San Francisco, CA | 2016 – Present

- Lead video production, projection mapping, media playback, LED systems, tracking, and show-control integrations for major regional theatrical productions.

CO-FOUNDER & CEO | iPolis Corporation | 1997 – 2007

- Co-founded an early webcasting & SaaS platform for Public Access, Education, and Government sectors, securing marquee clients including the City of San Francisco, City of Long Beach, Hampton University, and City of Oakland; led company through a successful \$2M+ acquisition.

EDUCATION & CERTIFICATIONS

- Google Project Management Professional Certificate — Google on Coursera (Jan 2026)
- 7-Year IATSE Apprenticeship — Stagecraft, video production, rigging, AV infrastructure & live operations.
- Production Technology Instructor — IATSE Local 16 Training Trust Fund (teaching video engineering, media systems & networking).
- Industry Training & Certifications — Barco, Analog Way, Millumin, OSHA 30, IT networking, media servers, fiber distribution, projection & LED systems.
